

In the fall of 2004, a service organization we belonged to desperately needed to fund nine scholarships for youth in the Los Angeles basin. Typical fund raising projects were labor and resource intensive among other things. The idea of touring China with a group was presented. At first, the idea was rejected until a team of 3 people put their heads together and challenged each other to make the project work. Since the service organization could not be a travel company, we decided we could.

The rest is history and "**A BlackTie Affair Travel Group**" was formed based on 4 principles:

- . Give impeccable service on our tours
- . Listen to our customers
- . Plan the details
- . Treat our customers like family

Group touring is our business. Need help with your passport or visa application, planning a family reunion or a group cruise, or just have a group tour that you'd like to leave the logistics to someone you can trust? Give us a call. With A BlackTie Affair Travel Group , we're accustomed to *"making all your travels a formal affair."*
